

The Devito Kitchen

Before

The kitchen design closed one doorway to give the kitchen and it's cooks dedicated workspace. This gave us a wall for the main sink , and the space to add the prep sink.

The design also removed the half wall and cabinets into the dining room. This gave a more open feel and more space for the dining table to seat family. Storage was increased dramatically!

Materials and Finishes Used:

- **Omega/Dynasty semi-custom cabinetry:** Wood – Alder, Stain – Honey
- **Countertops:** Granite Tropic Brown
- **Sink:** Blanco Supreme Stainless, Double Bowl Extra Deep
